Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 10 September 2003.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Claim Objections

1. Claims 17-19 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form.

Claim Rejections - 35 USC § 101

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

3. Claims 17-19 rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claim(s) 17-19 are directed to more than one statutory invention(s).

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

With regard to claim(s) 1, the intended use and/or novelty in such an arrangement is unclear. The examiner suggests indicating that the "thickness" is in the direction on conveyance.

Claim Rejections - 35 USC § 103

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claims 1-2, 12, 15-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Haas et al. (5,253,743) in view of Holtman (EP 0 888 994 A1).

With regard to these claim(s) Haas et al. (5,253,743) meet all the recited limitation(s) but lacks control as a function of product thickness. Holtman (EP 0 888 994 A1) teach(es) tray gap control as a function of product thickness for printed products.

It would have been obvious to modify Haas et al. (5,253,743) to provide control as a function of product thickness in order to increase efficiency as taught by Holtman (EP 0 888 994 A1).

8. Claims 1-4, 7, 9, 12, 15-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Haas et al. (5,253,743) in view of Holtman (EP 0 888 994 A1) as applied to claims 1-2, 12, 15-16 above, and further in view of Ruder (DE 38 29 355 A1).

Ruder (DE 38 29 355 A1) teach(es) a tray accumulator at a conveyor inlet area.

It would have been obvious to modify Haas et al. (5,253,743) to provide an accumulator in order to increase efficiency as taught by Ruder (DE 38 29 355 A1).

Conclusion

9. Claims 5-6, 8, 10-11 & 13-14 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

10. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

11. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joseph A. Dillon, Jr. whose telephone number is (703)305-9728. The examiner can normally be reached on 8-5:30, every other Friday off.
